We appreciate you taking the time to fill out our parent survey. It is valuable information and the results are used to create focus for our school goals for the following school year. One of the main aspects found in our survey last year was the importance all parents felt toward academic achievement and growth for each and every student. I am very proud to say that Sublimity School exceeded the state average at every grade level in both math and English language arts! Our goal is to repeat this performance for each grade level cohort this year.

Another area parents felt strongly about was the social emotional learning and well being of our students. It was evident that parents deemed this to be important and the District listened. We now have a half-time Student Intervention Coach to help educate and support both students and staff with self-management and regulation of behavior and emotions.

Again, thanks so much for your thoughts and opinions expressed on the survey. You can see how the data collected was so beneficial in planning our 2019-2020 school goals. You are the most important people in your students’ education!

~Principal, Missy Riesterer
