

Name: _____

10th Grade Alternative College Field Trip Assignment

For this alternate assignment, you will choose one community college or trade school in Oregon. Then you will find two careers the community college or trade school offers education for, and answer the following questions relating to each career:

Community College/Trade School Name: _____

Career #1: _____

What degree or certificate does the community college/trade school offer for this career? (choose a degree that you can complete at the community college, not an Oregon Transfer degree).

Are there prerequisites to entering this program/earning a degree for this career?

How could you meet those requirements?

Can you do them in high school?

Do you need to do them at the community college/trade school?

Approximately how much does the program/degree cost?

Career #2: _____

What degree or certificate does the community college/trade school offer for this career?
(choose a degree that you can complete at the community college, not an Oregon Transfer degree).

Are there prerequisites to entering this program/earning a degree for this career?

How could you meet those requirements?

Can you do them in high school?

Do you need to do them at the community college/trade school?

Approximately how much does the program/degree cost?
